# Base Template
Posted by JoshuaJonas - 19 Dec 2011 14:26

---

Does anyone have a computerized copy of the template for drilling a base, mine got destroyed(my 2 year old)?

Thanks

I'm looking at the template, no real need for a scanned copy. The holes are on 5" centers, offset on 1" centers. So just picture a 5" x 1" rectangle with holes at each of 2 opposite corners.

Rgds,

Please PM me with your email address and I'll send it over as a PDF. I'll try to get it posted to the site soon too for download.

Clay,

I have a customer who is waiting for a purchased WEPS and asked me if I had PDF copy of template for drilling base so he could get this done while waiting...

Thanks,

K--

_____

I tried to upload the document, but the server says the file is too large. If you PM me your email address, I'll mail it to you.

Mark
