_____

Hey Clay,

Is there any new news on when the Ceramic paddles will be back in stock?

Unfortunately I don't have an answer yet. I'm pressuring the supplier and I'll post what I learn as soon as they give me a date.

I spoke with Kay yesterday and she told me they have been having a real hard time with the manufacturer, and they were just now able to get a date. She said they are about 6 weeks out.

And it sounds like Clay has been trying to work with other company's to resolve this issue in the future! So don't be mad at the folks from WE, they really are doing everything they can.

OK; however, a little communication goes a long way...  2 weeks with no update is borderline unacceptable in any camp.

Agreed, Stephen, I read you loud and clear! We'll stay in much better communication with you. Thanks for your candidness, it will make us better.

not bad, assuming 6 weeks is right I'll only be 22 weeks into my 6 week wait.
