We hope this forum can be a place where users discuss their experience with the Wicked Edge Precision Sharpener and where a community will develop around the common passion of razor sharp knives. If you come across a technical challenge or if you find a solution to one, please post it here for everyone to see. We'd also love to see your results so if you have pictures or videos of your Wicked Edge sharpened knives, please post 'em! Thanks and welcome to the forum.

Buaaaaahahaha! I sneaked onboard when nobody was looking, Tom.

I'm looking forward to seeing what you use, it seems that the advertised stuff for the WEPS is only barely starting to scratch the surface of what people are actually USING with it.
