Hi TBW,

I am not exactly sure if I understand you correctly. But the error message you describe is usually one you get when your ISP or email provider does not recognize your mail account.

Who did you try to send a message?

Your message was probably not sent/or received. Phone your Internet/e-mail provider. Was this message sent to Clay at the Wicked Edge?

Hi Tuffy

I just tried it and it worked for me. Give it another shot and see what happens.
