Hey Mark,

I don't know if you've seen the knife database yet, but if not, please give it a visit and add in your knives if you have a moment. Here is the link: www.wickededgeusa.com/index.php?option=c...atalog&Itemid=94

Well, it has been a few weeks now and I think I have sharpened every knife in the house with the WEPS . It is awesome! I made a video of myself sharpening with it and put it on YouTube and I just noticed that wicked edge put it up on their Facebook page! Well, to Clay and all of the other people at Wicked Edge, thanks for this amazing sharpener!

Great video, cbw!

(And thanks for connecting me to Wicked Edge on Twitter - I got the link to your video from a friend of mine who retweeted a tweet by Clay.)

Thanks... but the credit goes to MarkAlexander... it's his video. I just posted the link to make it easy to find (or for those who avoid Facebook).
