New Riser & Arms Upgrade Cost?

Posted by angeltellez - 08 Oct 2012 06:30

Does anybody know how much it costs to buy the upgrade (new vice and arms) for the basic and pro pack 1 kits? And does anybody know when they will be available for purchase?

We have all the parts in stock right now and you can pre-order by calling in. We're still a little behind and trying to get all of our earlier pre-orders out the door so if you order now, it will be 1-2 weeks before we can ship. The cost is $145 without the Angle Gauge and $180 with the Angle Gauge.

Dangit Clay I'm broke enough as it is. Just don't tell the old man you have snazzy new arms that make things even easier to do or he'll bug me to get it

Nice. Now I have one more thing to add to the list.
Is the upgrade compatible with the Field & Sport Kit? I wanted the F&S because of its small size and ease of transport, but I would like to add the upgrade kit to which ever system I buy.

Off Topic: How can I change my User Name?

Pleasure, now about those Karma + & - buttons below our names.

Or the "Thank You" button below a post.

I think mine are broken, (the - is working) can a few people test mine please?

edit - I am joking.
