Backlog uodate

I am sure I am not the only one going a bit nuts counting the hours until I get my WEPS which is not due until Sept. It would be great if there was some sort of automated sytem one coud sign into to determine due date or get an update without plaguing the staff with individual emails.

I was thinking of making a youtube of me singing "I want my WEPS" to the tune I want my MTV... but my dog starts barking and whining everytime I sing. Maybe I'll hum with the lyrics printed out.

Thats good news. I think my order number is just slightly higher than yours. Also for a Pro Kit.

I was wondering if Clay was going to ship the kit and then ship the backordered stones. Which is how I was hoping he would do it.

Yup, that's exactly what he's doing. I'd bet you'll be able to play with yours soon!

I hope they're not holding up delivery of the system to ship w/ additional stones to save a bit of $$ on shipping. I would gladly pay separate shipping!

My pro-pack came without the missing plates, with a note that they will ship separately as soon as they come in.

_____

Got a email Friady that my WE is enroute, without the extra plates, but they will be shipping those on when they arrive (hopefully) in November. At least I will get to sharpen all my kitchen knives up by the end of the week.

_____

2369 Here. Got a while to go. Early November from the last email I got.

I have a knife that a friend gave me to sharpen on my EP, but now I want to do it on the WEPS. Its a small cheap Browning pocket folder that I had a hard time with on the EP.

Anyone want to put a stropped WE on it for me
so he can have it back without waiting until November?

_____

I havent heard anything as to when mine is set to arrive..... I believe my order number is 3307. Does anyone know how often they receive units from the manufacturer?

Sorry, no clue here. #2271 and I'm looking at 11 Nov or so. I did learn how to use automotive sandpaper (100 -3000 grits) to put a convex edge an old knife of mine.
