Any news of Pro Pack 2 upgrades?
Posted by ScottSherman - 08 Sep 2012 21:19

At the risk of sounding like a nag, and possibly upsetting someone, I can't help but wonder if there has been any news regarding the new arms or any of the other Pro Pack 2 upgrades. I read a post from Clay about a week or so ago that he was expecting prototypes of new arms and other upgrades, but haven't heard anything since. I know he is busy and working as hard as he can to get this new product out to users. I would just like to know of any progress or even lack of progress. Has anyone spoken to anyone at WE to see if the new parts were up to spec and ready to be mss produced and delivered to the many customers waiting so see them? I thought I would just post this here instead of calling WE. I am guessing that others may have already bugged them by phone for info.

I believe I am asking what others also want to ask or are wondering about. Any word on how far out delivery might be for new and upgrading customers? Perhaps it would could be possible for Clay or his staff to post weekly or semi weekly updates. I am a bit surprised that there isn't more info on the website since they are actually offering these new arms and products for sale by phone.

I hope we'll have them in to start shipping at the end of this week.

Sounds good, Clay. I'm sure everyone is cranked up for them to arrive.

Hi Clay,

I assume that you're shiping the new ProPack 2's also?

I have to ask, the wait is making me crazy, even if I'm 2,345,854th in line for one...

Thanks!

Clay, will the PP2 be available for sale on the website? How do I order one (or are they all pre-sold at this point)?

Hey Matthew,

I'll be listing them on the site this week (I hope) though you can pre-order them over the phone any time.
